Shipping

Q: How do I track my shipment?
A: You can track your shipment by providing your tracking number. Our system will show you the current status, last scan location, and estimated delivery date in real time.

Q: Where is my package right now?
A: Please share your tracking number and we will pull the latest location and status update for your package immediately.

Q: Why hasn't my tracking updated in a while?
A: Tracking updates can pause for 12 to 48 hours while a package moves between sorting facilities. If there has been no update for more than 48 hours, please share your tracking number so we can investigate.

Q: What do the different tracking statuses mean?
A: In Transit means your package is moving between facilities. Out for Delivery means it is on the final route today. Delivered means it has been handed over or left at the address. Exception means there is an issue that needs your attention. Contact us with your tracking number for details on any exception status.

Q: Can I track multiple shipments at once?
A: Yes. Share multiple tracking numbers in one message and we will return the status for each one.

Delivery

Q: What are your delivery time windows?
A: Standard delivery takes 3 to 5 business days. Express delivery arrives the next business day if placed before 3 PM local time. Same-day delivery is available in select cities. Delivery windows may vary during peak periods.

Q: My estimated delivery date has passed. What should I do?
A: Please share your tracking number and we will investigate right away. Delays can occur due to weather, customs, or high-volume periods. We will give you an updated estimated delivery date.

Q: Can I change my delivery address after the order has shipped?
A: Address changes may be possible if the package has not yet reached the final sorting facility. Share your tracking number and the new address and we will check whether a redirect is still available.

Q: What happens if I am not home when delivery is attempted?

A: The driver will leave a delivery notice at your address. We will make up to three delivery attempts. After the third attempt, the package is held at the nearest depot for 5 business days before being returned to the sender.

Q: Can I request a specific delivery time?
A: Time-window delivery is available on Express and Premium services. You can select it at checkout or contact us with your tracking number to add it after the order has been placed, subject to availability.

Q: Do you deliver on weekends?
A: Weekend delivery is available in most areas for Express and Premium services. Standard delivery operates Monday to Friday only. Check your service selection at checkout for weekend availability in your area.

Lost and Damaged Shipments
Q: My package is marked as delivered but I have not received it.
A: Please check with neighbors and any secure drop locations such as a porch, garage, or building reception. If you still cannot locate it, share your tracking number and we will open a trace investigation within 2 business hours.

Q: My item arrived damaged. What do I do?
A: Before opening the item further, take clear photos of the damage and all packaging. Then contact us with your tracking number and photos to start a damage claim. Please keep all original packaging until the claim is resolved.

Q: How long does a claim take to resolve?
A: Standard claims are resolved within 5 to 7 business days. Complex cases involving high-value items or international shipments may take up to 15 business days. You will receive email updates at each stage of the process.

Q: What compensation am I entitled to for a lost or damaged shipment?
A: Compensation depends on the declared value of the shipment and the service level purchased. Standard coverage is included with all shipments. Enhanced coverage is available if you opted in at the time of booking. Contact us with your order details to start a claim and we will confirm your coverage.
